

My Goals

1. **Why do I want to learn this skill?**

What does it mean to you? What are your motivations? Will you prove something to yourself or people around you? Will you get a raise because you're better at your job or will you get a better job?

To learn this skill will mean so much to myself because I often feel like I'm stuck in life. I didn't do so hot in School and I'm not getting any promotions or raises at work anytime soon. Learning this skill will help me with getting a better job, better pay, better lifestyle, and most importantly, I won't feel stuck in life anymore.

2. **What will I achieve if I learn this skill?**

Which doors will this skill open for you? Will you be able to earn more, have more flexibility in your work hours, work remotely and travel more?

By learning this skill, I will achieve a better chance at a better lifestyle. One that may help me with supporting a family. I'm also after the flexibility that comes with working remotely; since it can become a bridge to a happier version of myself by being able to travel and still work, visit family and still work, or the simple fact of being able to work from home is good enough for me.

3. **How will this skill change my life and my career?**

Would you get a raise at your current job or more respect from your boss once you've learnt this skill? Or will you be at Facebook, Amazon or Google instead? How would your life change?

For starters, I would leave my current job to find something in this field that obviously pays better. I'm starting to notice that I'm mentioning "money" a lot. It's not because it's all I care about, but I honestly want to be able to provide for a family someday and help my parents when they need it. Realistically speaking, I need to make more money for that.

4. **How will learning this skill impact the lives of my family, friends and coworkers?**

What will you be able to do for your family or friends once you've learnt this skill? How will it change the way they think of you? Will your coworkers respect you more?

I will be able to help my parents with purchasing the home they always wanted. I will be able to become an example to my younger siblings that it is possible to succeed even without a college degree. More importantly, I will become a competent husband that can single handedly support a family. I know my future wife will be able to work or have a career if she wishes so, but I was raised to the idea that I will become the breadwinner. And that's what I plan to do.

5. **How will I feel if I never accomplish this?**

Would you feel disappointed? Would you feel like you've missed out?

If I never accomplish this goal of mine; I will simply go back to feel stuck. It sounds simple, however, that's enough motivation to burn a fire from under my ass that makes me keep going. It's a horrible feeling that depresses me every now and then. I refuse to continue living paycheck to paycheck if I can help it.

6. **What would my life look like if I manage to accomplish this?**

Visualise it. What would life look like from the moment you wake up to the time you go to sleep? Will you be living by the sea? Would you kiss your beautiful wife/husband when you wake up?

I will wake up and get to work happy. From the comfort of my home, making a decent living and plan fun trips with my wife. I will also be able to start investing in my future, whether that means investing in the stock market, buying real estate, or starting a business. I will have means to actually accomplish those goals.
